

Quality Compliance

Certificate of Conformity

The designs of Variable Frequency Drive, VFD C, CH series, of Delta Electronics were in accordance with following European Directives and International standards and met the high quality requirements on Safety and Environment.

Directive/Standard	Description
2006/95/EC	Low Voltage Directive(LVD)
EN 61800-5-1 Part 5-1:	Adjustable speed electrical power drive systems – Part 5-1: Safety requirements – Electrical, thermal and energy
4.2	Protection against electric shock, thermal, and energy hazards – Fault conditions
4.3.1	Decisive voltage classification
4.3.2	Protective separation
4.3.3	Protection against direct contact
4.3.4	Protection in case of direct contact
4.3.5.1	Protection against indirect contact - General
4.3.5.2	Insulation between live parts and accessible conductive parts
4.3.5.3	Protective bonding circuit
4.3.5.4	Protective earthing conductor
4.3.5.5	Means of connection for the protective earthing conductor
4.3.5.6	Special features in equipment for protective class II
4.3.6	Insulation
4.3.7	Enclosures
4.3.8	Wiring and connections
4.3.9	Output short-circuit requirements
4.3.10	Residual Current-operated protective (RCD) or monitoring (RCM) device compatibility
4.3.11	Capacitor discharge
4.4	Protection against thermal hazards
4.5.1	Electrical energy hazards
4.5.2	Mechanical energy hazards
4.6	Protection against environmental stresses
5.2.1	Visual inspection
5.2.2	Mechanical tests
5.2.3	Electrical tests
5.2.4	Abnormal operation tests
5.2.5	Material tests
5.2.6	Environmental tests
6.1	Information and marking requirements - General

Quality Compliance

Directive/Standard	Description
2004/108/EC	Electromagnetic Compatibility (EMC)
EN 61800-3 Part 3:	Adjustable speed electrical power drive systems – Part 3: EMC requirements and specific test methods
EN 61000-6-3 EN 61000-6-4	Emission – Industrial environments Emission – Industrial environments
EN 61800-3 EN 61800-3	Conducted Emission : Category C3 Radiated Emission : Category C3
EN 61000-6-1 EN 61000-6-2	Immunity – Industrial environments Immunity – industrial environments
EN 61800-3 EN 61000-4-2 EN 61000-4-3 EN 61000-4-4 EN 61000-4-5 EN 61000-4-6	Immunity ESD: Electrostatic Discharge RS: Electromagnetic radiated susceptibility EFT: Electric Fast Transient Surge transient CS: Conducted emission susceptibility
EN 61800-3 IEC 61000-2-4 IEC 60146-1-1 IEC 61000-2-4 EN 61000-4-11 IEC 61000-2-4 IEC 61000-2-4	Low frequency immunity Harmonics Commutation notches Voltage variations and fluctuation Voltage dips and short interruption Voltage unbalance Frequency variations
EN 61800-3 EN 61000-3-2 EN 61000-3-12	Low frequency emission Harmonics($I \leq 16A$) Harmonics($I > 16A$)

Quality Compliance

Directive/Standard	Description
UL508C CAN/CSA-C22.2 No. 14-2005	Power Conversion Equipment Industrial Control Equipment cULus marking (Approved by UL)

Description

RCM

Section 182 of the Australian Radio communications Act 1992

EMI: Conducted and Radiated emission

Gost/EAC

Safety of low voltage equipment

Electromagnetic compatibility of technical means

Package Drop test and package vibration test
Packaged-Products weighing 150 lb (68 kg) or Less

Package Drop test and package vibration test
Packaged-Products weighing over 150 lb (68 kg)

Operation and non-operation vibration test
Overvoltage Category I

Vibration (sinusoidal)

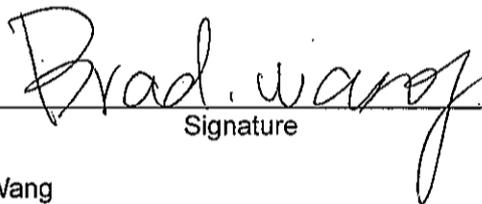

Shock

Rough handling shocks, primarily for equipment-type specimens

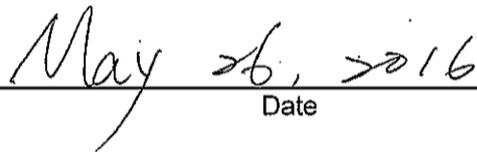

Degrees of protection provided by enclosures (IP Code)

(*) – for VFD-C & CH series, up to 355KW.

Performance upon above Directives/Standards might be discrete based on different installation and operation, reading user manual and quick start is advised.
